## Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

## **Listing of Claims**:

1-32 (Canceled).

- 33 (Currently amended). A calendar-based photo file browsing system for browsing a plurality of files including at least one of a digital image or a digital video, each said digital file having an associated date, said system having an interface displayed on a display, said interface comprising:
  - (a) a calendar portion having a range of displayed dates, each respective said date containing an indicator indicating the existence of one or more files associated with said respective said date; and
  - (b) a browsing portion permitting enabling a user to selectively increment said range alternatively either by a month or a portion of a month by a selected one of a day and a month.
- 34 (Currently amended). The system of claim 33 where said browsing portion permits a <u>said</u> user to selectively increment said range by a selected one of a day, a month, and a year.
- 35 (Currently amended). The system of claim 33 where said browsing portion permits a <u>said</u> user to adjust the size of said range <u>by a number of days equal to or greater</u> than a week.
- 36 (Currently amended). The system of claim 35 where said browsing portion permits a said user to alternate said range between a week and a month.
- 37 (Previously presented). The system of claim 33 where said indicator is a thumbnail image.

- 38 (Previously presented). The system of claim 37 where said thumbnail image is representative of a plurality of images, each associated with the respective indicator's date.
- 39 (Previously presented). The system of claim 33 where each respective displayed date has an associated displayed second indicator indicating the quantity of files associated with said respective displayed date.
  - 40 (Previously presented). The system of claim 33 having plural said indicators.
- 41 (Previously presented). The system of claim 40 where each of said plural indicators of a respective said date indicates a category of files.
- 42 (Previously presented). The system of claim 40 where each of said plural indicators of a respective date indicates a time associated with said respective date relative to other said indicators associated with said respective date.
- 43 (Currently amended). A calendar-based photo file browsing system for browsing a plurality of files including at least one of a digital image or a digital video, each said digital file having an associated date, said system having an interface displayed on a display, said interface comprising:
  - (a) a calendar portion having a range of displayed dates, each respective said date containing an indicator indicating the existence of one or more files associated with said respective said date, said indicator being a thumbnail image of a file associated with said respective said date; and
  - (b) <u>a browsing portion enabling a user to selectively increment said</u>

    range alternatively either by a month or a portion of a month said

    indicator being a thumbnail image of a file associated with said

    respective said date.

- 44 (Previously presented). The system of claim 43 where said thumbnail image is representative of a plurality of images, each associated with the respective indicator's date.
  - 45 (canceled).
- 46 (Currently amended). The system of claim 45 <u>43</u> where said browsing portion permits a <u>said</u> user to adjust the size of said range <u>by a number of days equal to or greater</u> than a week.
- 47 (Currently amended). The system of claim 46 where said browsing portion permits a <u>said</u> user to alternate said range between a week and a month.
- 48 (Currently amended). The system of claim 45 <u>43</u> where said browsing portion permits a <u>said</u> user to selectively increment said range by a selected one of a day, a month, and a year.
- 49 (Previously presented). The system of claim 43 where each respective displayed date has an associated displayed second indicator indicating the quantity of files associated with said respective displayed date.
  - 50 (Previously presented). The system of claim 43 having plural said indicators.
- 51 (Previously presented). The system of claim 50 where each of said plural indicators of a respective said date indicates a category of files.
- 52 (Previously presented). The system of claim 50 where each of said plural indicators of a respective date indicates a time associated with said respective date relative to other said indicators associated with said respective date.
